Helpdesk UI foundation

Colour palette:

This color scheme features blue-gray hues reminiscent of the visible mist and fog in the air during a stormy morning. Blue-gray (and its variations) are associated with trustworthiness and reliability, making them useful for creating a professional user interface.

Typography:
Font name: be vietnam pro

Be vietnam pro was designed with digital reading in mind, featuring generous spacing and open letterforms that make text easy to scan across screens.

Best for: Dashboards, websites, apps, and product interfaces

Icons: React Icons
